

Useful websites/apps for supporting learning in Maths

Websites for Maths

Please note that some of these websites are American and consequently do not always reflect the methods/vocabulary taught in UK schools. However, they offer some good activities to practise various concepts and skills.

<http://www.arcademicskillbuilders.com/>

Arcade style games that have really colourful and engaging graphics.

<http://primarygamesarena.com/Subjects/Maths>

A whole collection of games from elsewhere on the web that have been rated by users and sorted into suggested year groups. Lots of other subjects are available too.

<http://www.primaryinteractive.co.uk/maths.htm>

Another site that links to others offering a range of interactive maths activities in flash format. Lots of different mathematical areas covered. A number of money based resources that are really useful.

<http://www.mathsframe.co.uk/>

80 free activities for KS2 maths.

<http://www.counton.org/games/>

Lots of puzzle style maths activities in one place.

<http://www.fuelthebrain.com/>

Free to register website that is full of games and printables.

<http://www.coolmath-games.com/>

Website that is rather cluttered in appearance but has some nice problem solving games.

<http://www.doorwayonline.org.uk/>

Website developed for pupils with SEN. Has seven beautifully clear maths activities plus content for spelling, memory and touch typing. Maths activities include ones focusing on time, money, counting and calculations.

<http://www.mathszone.co.uk>

Website with links to numerous other sites and games in all areas of maths.

<http://www.bbc.co.uk/bitesize/ks1/maths/> and <http://www.bbc.co.uk/bitesize/ks1/maths/>

Bitesize offers teaching information and games/quizzes to practise in both Key Stages.
