

25th March 2015

Dear Parents/Carers,

**Personal, Social and Health Education (PSHE) –
YEAR 4 GIRLS
Mums and Daughters**

At 3.15pm on Wednesday 22 April a school nurse will lead a 30min session focussing upon the changes that are specific to your daughter as she grows up. We believe that this is really important, as we know that changes in girls are now happening at an earlier age and we would like to prepare our girls for this stage in their lives. This will be an informal gathering, in the library, where you can both ask questions. Mrs Duffield and Mrs Crozier will also join the group to support.

We started this initiative for Year 4 girls three years ago with much success. After discussions with the school nurse and other local schools we feel that this is appropriate for our Year 4's and will support them in their development.

Please could you complete the reply slip below to confirm whether you will be attending the 'Mums and Daughter session' or reply by email to admin@greenway.herts.sch.uk. If you would like any more information about the content or feedback from last year's session then please feel free to contact me.

Kind Regards.

Mrs Ellwood
