

Dear Parents and Carers

PARENTS' MATHS WORKSHOP

As mentioned in the May and June newsletters, we will be holding a Maths workshop for parents on **Wednesday 17th June from 7.00 – 8.30pm** where you will get a chance to find out (or a reminder of) the meaning of 'partitioning', 'place value', 'magic triangles' and various other mysterious terms your child uses when talking about Maths lessons!

These are all strategies taught at Greenway which may well differ from the way you were taught at school. It is really useful for you to understand them so we can work together to support your child's learning in Maths.

If you attended a Maths workshop last year, you will already be familiar with the methods of written calculation we teach. However, with the advent of the new curriculum there have been some changes, especially in Key Stage 2 and these are reflected in our revised 'Written Calculation Policy', which will be available for you to look at during the workshop. It will also be available to download from the school website after the workshop.

So if you are new to Greenway, have not been able to attend previously, or would simply like to refresh your memory, please come along as I am sure you will find it valuable, informative and fun!

Caroline Crozier

Maths Workshop Weds 17th June 7.00 – 8.30pm

Name(s) of child/ren.....

Class(es).....

Number of adults attending Workshop.....

(Please return this slip to the office by Monday 15th June
