

Friday 14<sup>th</sup> October 2016

Dear Parents/Carers,

Re: Maths Curriculum Evening - 9.11.16.

We will be holding a Maths Curriculum Evening on **Wednesday 9<sup>th</sup> November from 7.30-9.00pm.**

If you have previously attended a Maths evening at Greenway, you will be familiar with the methods of written calculation we teach and these are described in our 'Written Calculations Policy' available on the school website. This event will give you an insight into the way Maths teaching at Greenway has evolved since the introduction of the new national curriculum in September 2014, the focus of which is on achieving mastery of the subject through breadth and depth rather than accelerated learning. The evening will cover:

- A definition of mastery
- The Greenway context
- What teaching for breadth and depth looks like in the classroom (involving audience participation)
- Q&A with your children's class teachers

There will be practical activities and mini-teaching sessions from all Key Stages. I am sure you will find it interesting, informative and fun and we would love to see as many of you as possible there. To give us an indication of numbers, please return the slip below if you are intending to come.

Caroline Crozier  
Deputy Head and Maths Subject Leader
