

Dear Parents

26 October 2012

We have pleasure in inviting you to a curriculum evening about **supporting your child's reading comprehension** on:

Monday 12 November from 7-8.30pm.

Jane Andrews is one of the Local Authority's Primary Teaching and Learning Advisors. She has worked with all of our staff in developing guided reading across the school.

We are delighted that she can lead this curriculum evening where she will be focusing upon how parents can work in partnership with their children in developing effective reading comprehension skills. This session will be particularly useful for those parents who have children in Years 1 - 4. However if your child is in Nursery or Reception you are still welcome to attend. By the end of the session parents will have a clear understanding of:

- The use of talk to deepen comprehension.
- The benefit of in depth discussions rather than extending the phonic ability.
- To know how to support children to love reading and books.
- An understanding of the progression through to the child's next stage of education.

Please complete and return the slip below by Friday 9th November.

Yours sincerely

Katharine Weston
Head Teacher.
