

## Greenway Science Day Competition

What Science do you want to explore? Here's what you can do:

1. Choose any area of Science that interests you - it can be anything you like. For example: what food do plants need to for them to grow? What did a stegosaurus eat?
2. Identify a problem and plan a solution.
3. Do a **home** experiment to answer a question.
4. You can do your project on your own or with your family.

### Presenting your project

- Entries must be on a three-panelled board (made from a big cardboard box).
- Any models you make must fit in the space in the middle of the board.

### How your project will be marked

Entries will be marked on:

- The project's science content /5
- How clear and exciting your display looks /5
- How well you explain your project /5

Your projects must be done at home but Mrs Adams will offer support if you need it.

Projects must be brought into school by **Monday 17<sup>th</sup> 2019 and given to Mrs Adams.**

The best EYFS, KS1 & KS2 projects will win certificates and prizes.

NB. This competition is not compulsory!
