

Dear Year 4 Willow class,

I hope you are all well and keeping safe during these different times. I really miss seeing you every day and the fun and laughter we have. I have enjoyed the emails I have received from your parents letting me know how you are. I am looking forward to you sharing with me a piece of your work over the next two weeks.

During this time, I have been spending time with my family and carrying out fun experiments with the kits my oldest son has. My youngest son just wants to play football all day so I have been in goal a lot!!

Remember during this time to keep yourself fit and not spend all day on your screens!!! I know these times are different and strange but try to complete the activities that I set. You might want to create a timetable of the week to make it easier.

I have seen some of you walking past my house which is lovely. Speak to you all soon.

Mr Loczy
