Please encourage your child to play one or both of the following games. They will need to apply their phonic skills when reading. You can play the game 2 ways: 1. 1 person calls out the alien words and your child has to quickly find them. You could use a timer!. 2. You could have 2 different counters, roll the dice, move that number of spaces and encourage your child to read the word. If the words is read correctly you can stay there, if not you have to move back to your original place. You can decide where the beginning and the end of your board is. Enjoy!
