

Mrs Murphy's Very Hungry Caterpillars Page 1

Day 1

They arrived in their jar. They are very sleepy. They have their special food at the bottom of the jar.

Day 4

They are starting to be comfortable and move around a little bit. One is very brave and climbing to the top!

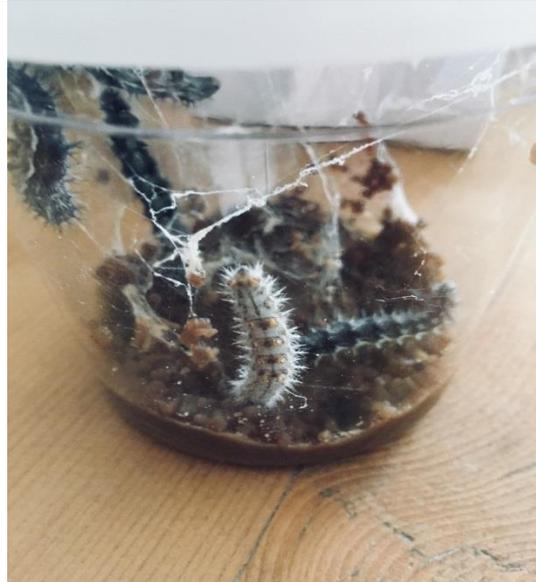

Day 6

The caterpillars are eating their food and growing. They move all around the jar now. I sometimes see them moving when I am working on my computer. They distract me sometimes!

Day 8

Today you can see that they are very big. Can you see them in detail? Can you draw them? When they have eaten enough they will climb to the top and their body will make a j shape.
