

Dear Year 6,

While you are working at home, I'd like you to make a start on your Year Book.

1. Go to www.allyearbooks.co.uk
2. Login with the email address (this is just a temporary email address for this website and won't be used for anything else) and password given to you on the attached document.
3. Change your password to something you're going to remember! To do this click on your name in the top right hand corner of the page, then choose **Change login details** and this will take you to a page where you can change your password.
4. Click on home. You can then add words and pictures

Words

There are 4 questions for you to answer

My Favourite quote – Is there a quote that sums up how you feel about life, school, friends etc? This can be one you've made up yourself or one you've found that you like.

My Favourite memories of Greenway – what are some of your first memories of Greenway? Do you remember the first time you met your best friend? What funny moments can you remember? What are you going to miss?

3 Words that describe me – how would you describe yourself? How would your friends describe you?

What would you like to be when you're older? The answer to this question won't appear on your profile page but underneath a baby photo of you on a page called 'When I'm older I'd like to be...' Your friends can then guess which photo and career/job belongs to which person!

Pictures

Your page in the year book has space for photos. One of these needs to be a photo of you on your own. Use a photo you've got already or ask someone to take a new one of you.

We can use photos we have of you at school from the last few years to fill the other spaces or if you have any photos already of you and your school friends, you can add these. Don't worry if you can't find any.

Upload a baby photo- this should be of you between about 6 months-3 years old if possible. This will be used on a page called 'When I'm older I'd like to be...'

Please upload your photos to your page. If you have any problems, let us know.
