

Why is school different?

School is different at the moment.

Some children are staying at home.

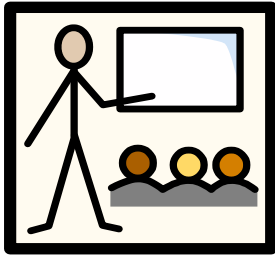

Some children are going to school.

They are going to school so that their parents can work.

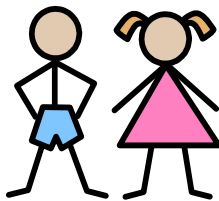

Their parents need to work as they do important jobs.

I might go to a different school.

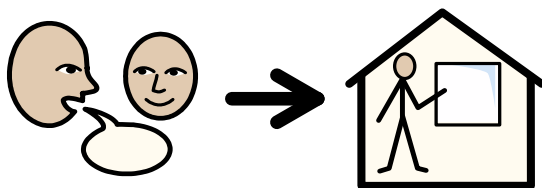

I might do different things.

I might see different children.

This is ok. It is not forever.

My family will tell me when my school is open again.
