

**Day 4-** Word problems using column addition

Remember to show your working out.

1. Jack has 19 pencils. He finds 53 more in the playground. How many does he have in total?
2. Kitty picks 35 daisies from her garden and 56 from the park. How many daisies does she have altogether?
3. Holly buys 17 stickers on Monday and 68 stickers on Tuesday. How many stickers does she have now?
4. Dave scored 57 goals last season and 44 goals this season. How many goals did he score in total?
5. Dotty has 65 rubbers and finds 38 more. How many rubbers does she have in total?

6.  =  $43 + 77$

7.  =  $19 + 32$

8.  =  $49 + 14$

9.  =  $46 + 99$

10.  =  $45 + 95$

**SUPER CHALLENGE:** Write your own addition word problems where regrouping is needed.

**Answers:**

1. 72
2. 91
3. 85
4. 101
5. 103
6. 120
7. 51
8. 63
9. 145
10. 140
