# Phoneme Spotter Story: 'a', 'ai', 'ay', 'a\_e', 'ey', 'eigh'

I can find sounds that say 'A'

## 1. Highlight, or underline, the words that contain the 'A' sound:

Jane was feeling very frustrated one day. Standing in the kitchen while she tried to bake a cake, her little baby Jay-Jay wouldn't stop complaining! Clawing at her apron (and painting her with trails of food and dirt), he wailed and howled and then wailed some more. Jane tried to check the weight of the flour; Jay-Jay wailed. Jane tried to shake off the floury trails on her apron; Jay-Jay wailed. Little baby Jay-Jay just wanted to play! He HAD been waiting since eight o'clock (over half an hour), and everyone knows babies can't wait patiently for long. Sighing in dismay, Jane decided to delay the cake until after Jay-Jay's nap, and took him out into the garden to play.

Hooray!
