

Dear Red Ash,

My name is Betty Bee and I need your help. Did you know that if we did not have bees we would not have many of the kinds of fruits and food you love to eat?

Well, some people try to get rid of bees because they do not understand how important we are.

Please learn as much as you can about bees then write some notices to put up around your garden to tell everyone about the importance of bees. Write a letter to me to tell me what you have been learning

Yours sincerely,

Betty Bee
