

# Summer Activities for You from the GSA!

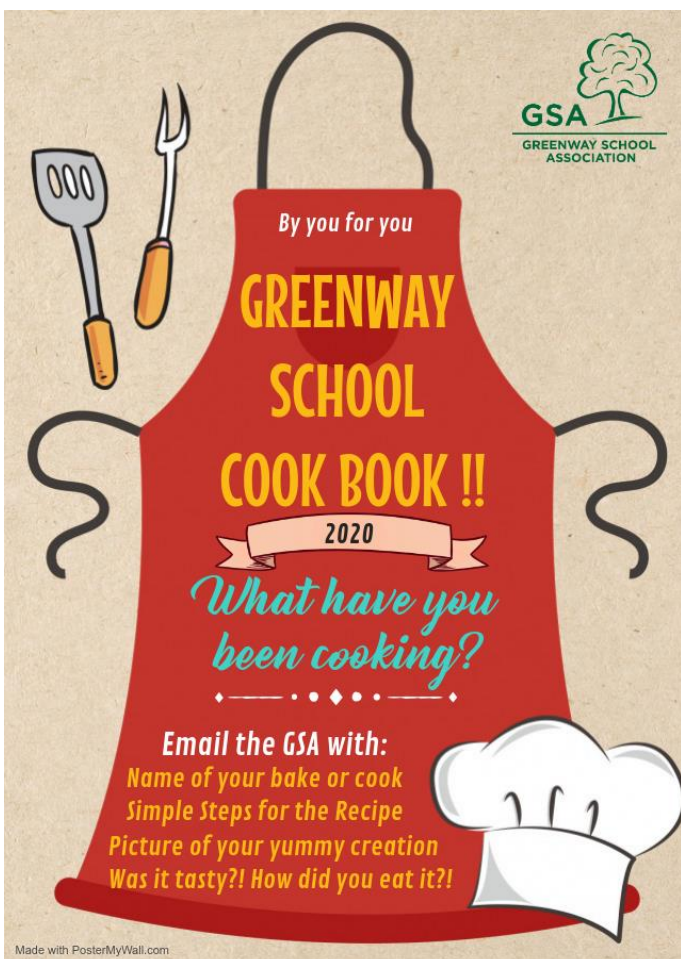

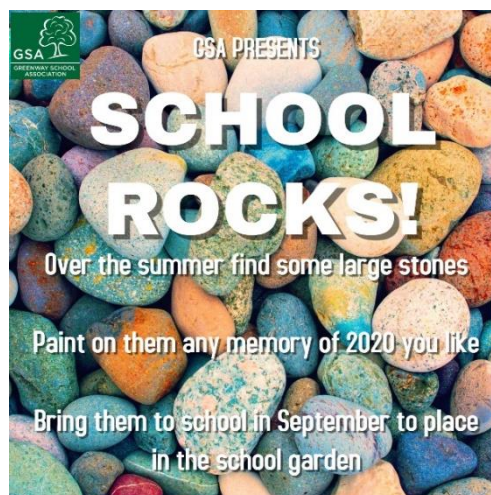

As we come to the end of a unique school year the GSA wishes you a healthy and safe summer. Though we have been unable to complete all our usual activities we would love to suggest a couple of activities for you to complete over the summer to stay connected to the school community. We look forward to seeing more of each other in September!

## School Rocks

You may have seen painted stones around Berkhamsted during lockdown. We would like to collect the children's creations to put in the new school garden.

1. Find a large stone
2. Paint on it your memory of 2020
3. Bring them to school in September to be placed in the new school garden

Tip: For the best weather proofing we recommend washing your stone before painting and using waterproof craft paints or acrylic paints.

## The Greenway School Cookbook

The GSA are launching the Greenway School Cookbook! The book will serve as a memento of these extraordinary times, nurture the kids' enthusiasm for cooking and help raise funds for the school. We want your recipes and crazy concoctions to include in the book be they sweet, savoury, traditional or experimental.

Please send your child's recipe including:

- Child's name
- Year group
- Recipe name
- Ingredients
- How many it serves
- Step by step instructions
- A photo of you and your creation

to [gsa@greenway.herts.sch.uk](mailto:gsa@greenway.herts.sch.uk) by Friday 11 September. Please see the attached template and guidance for submissions.

We will produce the book over the autumn and have it ready for sale before Christmas.
