

WILLOW NEWS!

Autumn 2020

ROCKIN' ROMANS!

All the children have been so enthusiastic to learn about the Roman invasion of Britain and what life in Britain was like during Roman rule. Using primary sources of evidence we realised Boudica was a good few steps ahead of the Spice Girls when it comes to 'Girl Power' and that we could all take a leaf out of any Roman Soldiers book when it comes to commitment, focus, training and organization! We learned to calculate using Roman Numerals in maths and also created a fantastic mosaicked class mural!

Reduce, Reuse, Recycle

During the first half term our science and geography learning overlapped as we learned about the need to protect habitats and the importance of biodiversity... and also about renewable energy and climate change! In art we made weaving looms and created recycled plastic mats. It's amazing what you can do with an old plastic bag!

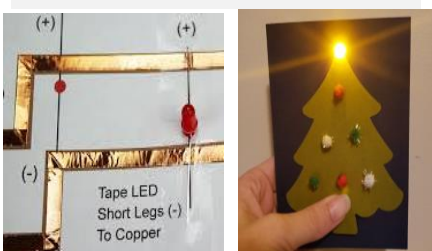

The children have been fantastically sensible and we quickly established a good hygiene routine this term to keep us all safe. Thank you for on-going supplies of hand sanitisers and tissues – they are much appreciated!

Its beginning to look a lot like Christmas...

We used our science learning in DT to investigate and design a light up Christmas card using circuits, conductors and switches.

We had so much fun creating our clay snowmen on Christmas Decs Day! We rolled and shaped, knotted and tied, painted and glazed... it was certainly messy but full of festive fun!
