Dear Parents/Carers

Following two separate incidents that took place last week after school involving an older gentleman and a white van, I have made further contact with police.

I can share with you that they have spoken to the individual over the weekend. I understand that the individual has been given strong words of advice regarding appropriate social contact. I have also been advised that the police will be present at the school's gate at pick up this afternoon and will aim to be present at either drop off or pick up, on one further occasion by the end of the week.

It goes without saying that if you have any concerns or see anything suspicious you should not hesitate to call the police on 101. Clearly if it is an emergency call 999.

The priority of my staff and governors is to ensure the safety of all children within our care during the school day and we continue to do this. Please may I remind you that these incidents have not taken place on the school grounds.

Regards

Katharine Ellwood
