

GREENWAY PRIMARY AND NURSERY SCHOOL

HOME LEARNING POLICY

Approved: 13 February 2025

Date of review: Spring Term 2026

Purpose

A well-managed Home Learning programme helps children to develop the skills and attitude that they need to meet the school's aim for them in developing a 'life-long love of learning'. It shows children that there is a place for 'learning' beyond the classroom and increasingly supports independent learning-skills, as well as giving parents/carers an opportunity to take part and/or show interest in what their children are learning.

We know that parents/carers play a vital role in a child's learning and believe that a strong home – school partnership (of which home learning is one element) can only have positive impacts for all.

We believe strongly in the importance of well-rounded, balanced individuals and have designed our Home Learning Policy to reflect this. We are aware of the demands of modern family life and of all that is gained when children can take part in that fully, so while home learning is important, we have appropriate expectations (in line with what is reasonable for Primary aged children) and will not overload children, or their parents/carers, with too much of it.

Aims

Through this policy we aim to:

- Ensure that all parents and carers understand what is expected.
- Ensure home learning tasks are set with clear learning intentions, related to current work the child is doing in class, providing opportunities to practice, apply and consolidate their knowledge, skills and understanding..
- Ensure a consistent approach throughout the school.
- Use home learning to support the raising of standards
- Encourage children and their parents/carers to share learning experiences beyond the classroom.
- Strengthen the partnership between home and school.
- Encourage children to develop the responsibility, confidence and self-discipline needed to work independently.
- Prepare children for the transfer to secondary school.

Expectations

Teachers will:

- Set out (at the beginning of the academic year), home learning procedures which can be found on the 'Meet the teacher' powerpoints, on the school website.
- Set home learning regularly (in accordance with this policy)
- Ensure that home learning is **purposeful, meaningful, accessible** to the child and **related to what is currently being taught in class.**

- Make sure that the home learning set, contains clear learning intentions; clear instructions to the child and parent; and where appropriate, an example of the strategy to use.
- Acknowledge effort for home learning - If submitted by the deadline (3pm Thursday), home learning will be acknowledged weekly and returned to parents/carers, for them and their children to review
- Explore reasons, with parents/carers, where a child is not completing home learning tasks or submitting home learning on time.

Children will:

- Be given guidance about how to do a piece of home learning
- Always complete their home learning to the best of their ability (and be open with parents/carers and teachers about anything that they are struggling with)
- Take (increasing) ownership of developing as an independent learner
- Be responsible for doing and returning home learning on time

Parents/carers will:

- Provide their child with quiet space for home learning
- Set aside time for home learning
- Show interest in talking about and supporting home learning
- Encourage their child to use resources that can be made available to them
- Monitor home learning so that it is completed to the best of their child's ability and on time
- Raise (with the teacher) concerns that their child has shared with them or where they observe that their child is struggling or taking a particularly long time to complete the work set.
